**PLANTING SPECIFICATIONS**

All work and materials shall be in accordance with current American Standard Specifications and as set forth in the Contract Documents.

**SOIL CHARACTERISTICS**

1) Remove general surface rubble, stones and the top 6 inches of soil to a depth of 12 inches. This material shall be collected and stored in Contractor's pile to be disposed of as per the Contract Documents.

**EARTHWORKS**

1) Proposed shrub planting areas shall be graded to provide an average grade to plus a finished depth of 12 inches.

2) All final levels of ground to be 12 inches above existing existing ground.

3) Final ground level shall be 12 inches above existing existing ground.

4) Proposed shrub planting areas shall be graded to provide an average grade to plus a finished depth of 12 inches.

5) Final ground level shall be 12 inches above existing existing ground.

**QUALITY CONTROL AND PLANTING**

1) All shrub planting shall be installed only by workers to provide a good mix of all sizes, species and other characteristics as set forth in the Contract Documents.

2) All shrub planting shall be installed only by workers to provide a good mix of all sizes, species and other characteristics as set forth in the Contract Documents.

3) All shrub planting shall be installed only by workers to provide a good mix of all sizes, species and other characteristics as set forth in the Contract Documents.

**PLANTING SPECIFICATIONS (continued)**

1) All shrub planting shall be installed only by workers to provide a good mix of all sizes, species and other characteristics as set forth in the Contract Documents.

2) All shrub planting shall be installed only by workers to provide a good mix of all sizes, species and other characteristics as set forth in the Contract Documents.

3) All shrub planting shall be installed only by workers to provide a good mix of all sizes, species and other characteristics as set forth in the Contract Documents.

**PLANTING SPECIFICATIONS (continued)**

1) All shrub planting shall be installed only by workers to provide a good mix of all sizes, species and other characteristics as set forth in the Contract Documents.

2) All shrub planting shall be installed only by workers to provide a good mix of all sizes, species and other characteristics as set forth in the Contract Documents.

3) All shrub planting shall be installed only by workers to provide a good mix of all sizes, species and other characteristics as set forth in the Contract Documents.

**PLANTING SPECIFICATIONS (continued)**

1) All shrub planting shall be installed only by workers to provide a good mix of all sizes, species and other characteristics as set forth in the Contract Documents.

2) All shrub planting shall be installed only by workers to provide a good mix of all sizes, species and other characteristics as set forth in the Contract Documents.

3) All shrub planting shall be installed only by workers to provide a good mix of all sizes, species and other characteristics as set forth in the Contract Documents.

**PLANTING SPECIFICATIONS (continued)**

1) All shrub planting shall be installed only by workers to provide a good mix of all sizes, species and other characteristics as set forth in the Contract Documents.

2) All shrub planting shall be installed only by workers to provide a good mix of all sizes, species and other characteristics as set forth in the Contract Documents.

3) All shrub planting shall be installed only by workers to provide a good mix of all sizes, species and other characteristics as set forth in the Contract Documents.
